## Interval Shapes－Exercise 1

It is suggested you make copies for practice（keep one＇master＇copy blank）．
Daily：
1．Play and name each interval in 1st 4 rows．After 1st day，skip around．Change the order．
2．Write in one row per day of the bottom 4 rows．DON＇T use the B string or G to E string intervals．
3．Last couple of practices for the week：play and name all．
